The maps and data contained on this disc or download are compilations from several different sources, with several different levels of precision, prepared over a period of several years. The maps and data were created or compiled by the FNSB to support government related tasks and not with other uses in mind. The data, particularly the tax roll, parcel layer, and zoning layer, is a snapshot of one point in time of information that is constantly changing hence may not be up to date or accurate. The maps and data are intended to be used solely for informational purposes, and are not replacements for legal documents, title reports, or survey plats. If you need documentation of any information on this disc or download, contact the appropriate agency or department (see metadata document for responsible department/agency). The maps and data may contain errors, omissions, or outdated information. The maps and data are made available on the condition that users agree that the FNSB will not be held liable for any loss, injury, or damage of any kind, whether direct or indirect, resulting from any errors or omissions in the maps, data, or disc. The FNSB assumes no responsibility for the failure of storage devices provided by customers. The FNSB assumes no responsibility for any data transfer failure that may occur during the FNSB's possession of the storage device. Customers leave storage devices with the FNSB at their own risk, and the FNSB has no obligation to pay for or replace any storage device that fails while in the possession of the FNSB.
